A. R. Peacock of Pittsburg has congressional aspirations and \$20,000,000. He's a peacock sure enough.

Had the coachman asked Andrew Carnegie for the hand of his niece, before he married her, perhaps it would have been different.

There are large numbers of Italians located in the Northern States, in the extreme portions, but nearly every other nationality of immigrants make equally as good citizens, and are as desirable for Florida.

The anti-tipping bill recently passed by the Wisconsin Legislature and signed by the Governor, will cause much sorrow among the class who receive such favors. When the people who give tips realize that for such generosity they are liable to a fine of from \$10 to \$500, they will heartily desist.

The Charity Edition of The Metropolis of Jacksonville, published on Saturday, was the best that paper has ever issued in the special line. The object for which it was issued is most commendable, and the effort to make an edition worthy so great a cause was accomplished in a very satisfactory manner.

The bill to require all proprietary medicines to print on their labels the amount of alcohol contained, has been indefinitely postponed in the House, and it is quite certain that will be the end of it. The law, if passed, could be evaded without much difficulty, and it would simply be another dead-letter on the statute books.

The business outlook in the South was never better than at the present time. Many new men have come to the South in recent years, and few people stop to ask whether they are English, French, German or any other nationality, so long as they are looking for business. It matters not from what country they come. If they are progressive and mean business, there is a field for thousands in the South.

It now transpires that there is strong reason to believe that Caesar Young shot himself; the doctor who performed the autopsy asserts this fact. But District Attorney Jerome prosecuted Nan Paterson almost to persecution, and has not aided his popularity in the least by so doing. The first trial was enough to convince many good lawyers of Miss Paterson's innocence, and one was heard to remark that he didn't think that she shot Young, although he deserved it.

The Woman's Memorial Edition of The Jacksonville Times-Union, published on Sunday under the direction of a committee of Martha Reid Chapter of the Daughters of the Confederacy, Veterans and Sons and Daughters of Veterans, was the most interesting special edition ever printed in Florida. It was replete with incidents of the war between the States, profusely illustrated, original poems of high merit, able editorials on the cause and effect of the events of that time, besides containing that paper's excellent complement of current news published each Sunday.

ARE GOOD FRIENDS.

The mistaken idea that there is any sectional feeling between the North and South is only brought about by a few political slysters in the land, who don't know what they are talking about, and only have a limited knowledge of the affairs in the South, which they may have acquired in a week or ten days on a visit here. Men of business from either section have no such nonsensical ideas. It is the self-constituted friends of the oppressed and lowly who send out such reports, who are too lazy themselves to work, and go into communities where they can sponge an existence from the unoppressed.

The solution of the race problem, of which so much is heard in the papers that publish the tales of woe of these self-constituted missionaries, does not enter the head of one business man in fifty in the North. They perceive that the Southern people know better how to handle the colored people than they do, and are willing, if the matter should ever remotely enter their minds, to let the people of this country solve the problem. They—the men of business—have troubles enough of their own, without going away from home to borrow any from their Southern brethren.

The great hobby of these reformers, and their greatest complaint is, that the business man is too wrapped up in his idols to stop and consider suffering (?) humanity, when, in fact, the only sufferer is the man who goes about making trouble to gain an honest (?) living.

If these agitators would only get off the face of the earth, there would be no dissensions among the people of this broad land of ours.

STATE MEETING OF U. D. C.

The annual convention of the United Daughters of the Confederacy of Florida closed its three days' session at Pensacola on Friday evening of last week, and it was a most enjoyable event. At the election of State officers the ones of the year just closed were re-elected, with but two exceptions, as follows:

President—Mrs. H. E. Stockbridge of Lake City.
First Vice-President—Miss Azele E. Carruthers Tampa.

Second Vice-President—Mrs. Drydale of Jacksonville.

Third Vice-President—Mrs. J. D. McCrory of DeLand.

Fourth Vice-President—Mrs. R. D. Blake of Ocala.

Corresponding Secretary—Mrs. S. Thompson of Lake City.

Recording Secretary—Mrs. Brown of West Palm Beach.

Treasurer—Mrs. Gwynne of Tallahassee.

State Registrar—Miss Mary Wittich of Pensacola.

Historian—Mrs. W. W. Carroll of Monticello.

There were invitations from several Florida cities to entertain the convention next year, but Orlando was the city decided upon when the Florida Division, U. D. C., will convene in May, 1906.

A paper says that "Carrie Nation is still lecturing." If she would only continue with "still" lectures the owners of stills would be better satisfied.

Macon Woman Commits Suicide.

Macon, Ga., May 8.—Mrs. Mary Riddle, aged 22 years and the wife of Henry A. Riddle, a painter for the Central railroad here, committed suicide here by shooting herself through the heart with a revolver. She had been suffering from ill health for over two years, and without warning to her family she procured her husband's pistol and ended her life.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

Baroness Faints in Court.

Washington, May 8.—Arraigned as Alice Nelson, the woman claimed to be the Baroness de Vorts-Salmo, of Austria, fainted in the police court after pleading not guilty to the charge of grand larceny and waiving examination. The woman entered the court room leaning on the arm of the matron of the house of detention. She was trembling as the information was read charging her with taking about \$500 worth of goods from William Slater & Co. The proceedings had closed when the prisoner collapsed completely. On being revived she was taken back to the house of detention.

Dissatisfied With Her Share.

New York, May 8.—Dissatisfied with his share of the estate of his sister, the late Mrs. Charles L. Fair, Frank Smith, who has returned from Topeka, Kan., to his former home in Newmarket, N. J., after an absence of 25 years, is reported to be preparing a contest. A New York law firm represented the heirs of Mrs. Fair in the second settlement of her estate. It is said they received 60 per cent of the total sum and the heirs 40 per cent. Smith refuses to accept his share, about \$11,000, because he did not sign any papers or agree to the terms.

Cincinnati Society to Meet.

New York, May 8.—The Society of Cincinnati, will, it is announced, hold its triennial meeting at Richmond, Va., on May 10, 11 and 12, when it will be entertained by the Virginia branch of the society. On May 10, the Westmoreland club will give a dinner to the members of the society and special guests, including the French ambassador and governor of Virginia. On May 11 the society will go to Yorktown. The final business session will be held on the morning of May 12.

Swindler is Arrested.

St. Louis, May 8.—Wm. J. Hogue, who was arrested in Chicago, came to St. Louis from Greenville, Tex., in 1902, and with three other Texans founded the international investment company, of which he became manager. The concern suspended payment Feb. 12, 1903, and following the exposes general investigation by both city and federal authorities of the so-called "get-rich-quick" enterprises, Hogue was indicted. He disappeared immediately, the concern suspending.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
